

B1241-6W-12W-18W-24W-3CCT

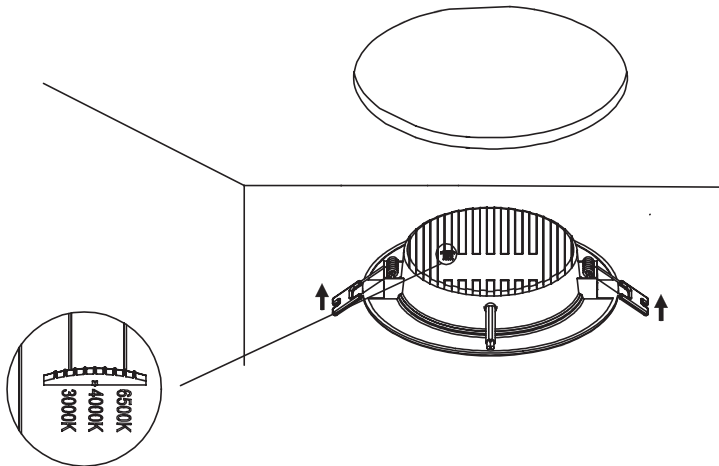

Specification	2.5inch	3.5inch	4inch	5inch	8inch	12inch
Installation diameter	Ø80 (77-82mm)	Ø105 (105-110mm)	Ø125 (125-130mm)	Ø150 (145-150mm)	Ø195 (190-200mm)	Ø270 (265-275mm)

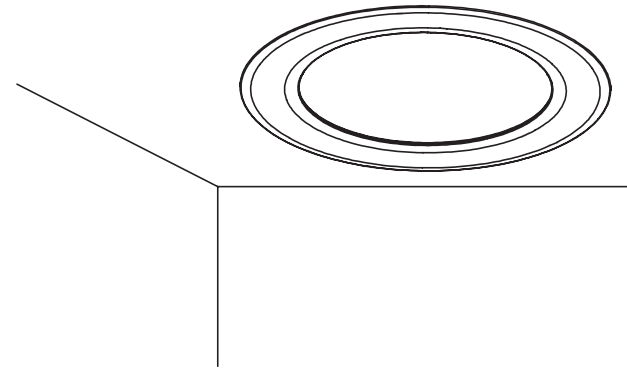

1. Cut an opening in the ceiling matching the fixture's dimensions.

2. Before installation, turn off the main power supply to ensure the fixture is de-energized. Connect the fixture to the pre-wired cables; professional electrician installation is recommended.

3. Align the spring clips at both ends of the product vertically, insert into the opening, and select the color temperature before installation.

4. After installation, restore power.
