until indicator light is slowly flashing

NO.2

Add device-Enter Wi-Fi password

Select the Wi-Fi under which device is working, enter password and tap “Confirm” to enter network connection process, as shown in the picture below

If you select normal mode to connect device to the network, the App goes through the processes as shown in the picture 1. After the network connection is successfully, the App page will be shown in the picture 2

图1

图2

For AP mode, connect to the Wi-Fi hotspot named "SmartLife", as shown in the picture

Notes: Some devices might have different hotspot names.

After connecting with the hotspot, back to the network connection page to enter network connection process. The App goes through as shown in the picture 1. Picture 2 shows the App page when the network connection is successful.

Picture 1

Picture 2

If your App interface is shown as in the picture, it means that the network connection failed. You could try by connecting again or view help.

After successfully configuring the devices, the smart device will be shown on the home page. Tap to enter its control page

Note:

1. When device is online, it support short-cut operations
2. When device is offline, it displays “Offline” and can be controlled.

Smart life scenario supports that devices perform corresponding actions under various conditions. The main conditions include:

- 1.Temperature
- 2.Humidity
- 3.Weather
- 4.PM2.5
- 5.Air quality
- 6.Sunrise & sunset time
- 7.Device's actions (such as turn on/ff)

“Profile” page is where users could manage personal information. The key information is as follows:

1. Personal information
2. Smart life scenario
3. Device Sharing: display the information of shared devices
4. Message center
5. F.A.Q
6. Entry to submit feedback
7. About

“Profile” page is for displaying personal account information. You can change login password, binding mobile number, set pattern unlock on this page.

Tap “Pattern unlock” to set your pattern. After setup, you have to enter your pattern to use the App

NO.4 Profile-Pattern Unlock

Send sharing: The list shows all members who are added by your account. You can delete the member and delete the sharing by swiping left.

Receive sharing: The list shows all devices that your account has received. You can delete the sharing by swiping left.

NO.4 Profile-Device Sharing

The screenshot shows a mobile app interface for adding a new member to share a smart device. At the top, the status bar displays signal strength, carrier (中国移动), time (2:44 PM), and battery level (21%). Below the status bar, there are two buttons: "Cancel" and "Add Sharing". The main content area has a title "Add new member to use smart device". Below the title, there is a form with two input fields: "China +86" and "Enter mobile number/E-mail". Below the form, there is a large orange button labeled "Confirm".

Add sharing: As shown in the picture, users could input a new member's mobile number and share the device with him. The new member could then control the shared device.

Message centre: Including notifications of new device and new sharing

Feedback: Entry where users could submit their feedback

App's other related information include:
