

Flexible silicone sleeve for converting LED strip to neon - 16x16mm - 5 meters - PCB up to 10mm - Horizontal curvature

Ref. WOS1616-S

16x16mm opal silicone sleeve that allows to convert any 8 or 10mm wide LED strip into a flexible neon. Available in a 5 meter length, it has a guide inside to facilitate the mounting of the LED strip. Designed for lateral curvature, it allows to create letters and drawings in "S" shape. For contours we recommend reference WOS1616.** Does NOT include LED strip, staples or covers **.

Datos del producto
