

Watertight T-connection cable for 6 RGB beacons

Ref. BA50063

Cable with watertight connection to install up to 6 RGB LED beacons / beacons. This connector facilitates the placement of outdoor luminaires when several together. The cable has an extension of 3 meters and each T connection is separated one from the other about 50cm. To finish the installation we need in addition to the RGB beacons, a RGB dimmer, the power supply and the controller.
