

Three-phase track for LED spotlights - 2 meter bar

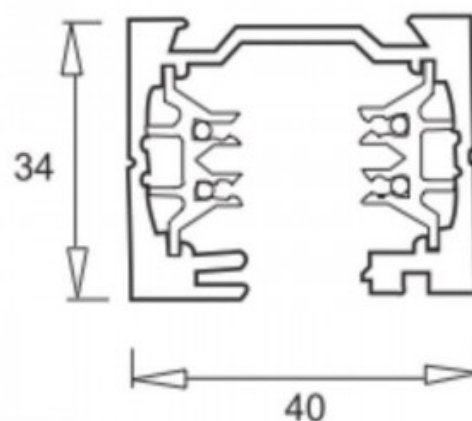

Ref. BTT-200

The three-phase surface track, 2 meters long, allows to install LED spotlights and to move them easily, according to the needs. It consists of an aluminum profile available in two colors (black or white), with 3 electrical lines that allow three independent ignitions on the same rail. In this way, it offers great versatility for the differential switching on and off of luminaires, according to the requirements of each project. **It includes start feeder and end cap**.
