

Surface motion sensor PIR 360° IP20

Ref. S1140

This product will allow you to save energy thanks to its motion sensor. This way you will be able to turn on and off the lights automatically. Its infrared sensor allows you to detect when someone enters your field. One of the great features of this sensor is that it is able to identify night and day light, thus using the energy of LED products in a more effective way. The motion sensor is surface mounted, has a detection angle of 360° and a detection distance of 0-6 meters. 230V - Max. 1200W Ø114x53mm ∠ 360° IP20 ⇔ 0-6m PIR

Product data

| | |
|-------------------------|---------------------------------------|
| Nominal Voltage (V) | 230 |
| Frequency (Hz) | 50 - 60 |
| Detection range (m) | 0-6 |
| Detection angle (°) | 360 |
| Orientable | No |
| Dimensions (mm) LxIxh | Ø114x53 |
| Weight (g) | 200 |
| Material | Plastic |
| Use Outdoor | No |
| IP | IP20 |
| Temperature range | -20°C ~ +40°C |
| Frequency of use | Intensive |
| Energy efficiency class | A+ (2021) |
| Certificates | CE, ROHS |
| Warranty | According to legal guarantee: 2 years |
| Mounting | Surface |
| Connectivity | PIR |
