

## Microwave motion and presence radar sensor 360° 5.8GHz IP20

### Ref. S2000

Microwave presence sensor with 5.8Hz radar and 360° detection angle. It is possible to adjust the switch-off time, light detection and detection meters. Thanks to its detection through microwaves the sensor can be covered in its installation since the detection is possible through doors, windows or thin walls of non-metallic materials. 5.8Hz 70x42x25mm ∠ 360° ⇔ 2-10m 240V IP20
