

## CCT RF dimmer control for LED lighting SUNRICHER - Perfect RF

### Ref. SR-2833TS-CCT

Radio Frequency Color Temperature Controller for LED Strips 12-36V. This controller is suitable for regulating the temperature in dual white LED strips (the strip alternates warm and cool color chips). But we recommend a much more effective use, control the intensity of two LED strips connected in parallel (one cool white and one warm white) and get a perfect regulation without losing brightness, to control the two strips with a single control.

### Datos del producto

Nominal Voltage (V)	6V-DC
Sensor	No
Detection range (m)	25000
Dimensions (mm) Lxhx	141x35x8.5
Material	Plastic
Use Outdoor	No
IP	IP20
Temperature range	0 ~ +40°C
Frequency of use	Intensive
Lifetime (h)	35000
Energy efficiency class	A+ (2021)
Certificates	CE, ROHS
Warranty	According to legal guarantee: 2 years
Connectivity	Radiofrequency
Colour control	CCT
Number of zones	1
