

Adjustable RF PUSH driver 8-48V 50W multichannel (250-1500mA) - Perfect RF

Ref. SRP-1009-50CC

The SRP-1009-50CC is a 50W dimmable LED driver with 1 channel constant current output and adjustable current from 250ma to 1500ma by DIP switches for different currents at constant current. It is designed with an input of 200 - 240V. The power factor of the controller can be higher than 0.9 and the efficiency is higher than 87%. It allows a smooth and deep dimming of 0.1% without flickering and buzzing. The LED controller is designed with RF control interface and can be compatible with a variety of RF remote controllers. This controller is from Sunricher brand of Perfect RF category.
