

## Switching power supply 24V 100W IP20

### Ref. B1566-100

Switching power supply for LED strips, LED neon, floor lights... suitable for use with all types of 24V-DC luminaires with a maximum load of 100W. Input voltage 110V/230V. For indoor use, IP20 rating. Output 24VMax. power 100W. Input 110-230V IP20

### Datos del producto

|                         |                                       |
|-------------------------|---------------------------------------|
| Power (W)               | 100                                   |
| Nominal Voltage (V)     | 110-230                               |
| Frequency (Hz)          | 50 - 60                               |
| Power factor (cosφ)     | 0.5                                   |
| Dimensions (mm) LxIxH   | 159x98x41                             |
| Material                | Aluminium                             |
| Use Outdoor             | No                                    |
| IP                      | IP20                                  |
| Temperature range       | -20°C ~ +40°C                         |
| Frequency of use        | Normal                                |
| Lifetime (h)            | 25000                                 |
| Energy efficiency class | A+ (2021)                             |
| Certificates            | CE, ROHS                              |
| Warranty                | According to legal guarantee: 2 years |
| Output voltage (V)      | 24V                                   |
| Maximum intensity (A)   | 4                                     |
