

Infrared motion sensor PIR orientable IP44

Ref. SP15B

Infrared motion detector (PIR) orientable for indoor or outdoor wall mounting, with IP44 protection degree. The infrared sensor can detect when someone enters its field at an angle of 180 degrees, with a range of 12 meters and a maximum load allowed 1000W (saving bulbs) and 2000W (Incandescent). Infrared sensor capable of identifying night and day light, which allows adjusting the delay time and the amount of lux for its operation. Adjustable. 220-240V/AC Max. 1000W (Saver Bulbs); 2000W (Incandescent). 55x76x67mm \angle 180° IP44 \leftrightarrow 12m PIR

Datos del producto

Nominal Voltage (V)	230
Frequency (Hz)	50 - 60
Detection range (m)	máx. 12m
Detection angle (°)	180
Orientable	Yes
Dimensions (mm) LxIxh	55x67x76
IP	IP44
Temperature range	-20°C ~ +40°C
Warranty	According to legal guarantee: 2 years
Mounting	Surface
Maximum power (W)	2000W
Connectivity	PIR
