

Aluminum Profile 58x9mm Half Moon Shaped Surface (2 mt)

Ref. BPERF58X9

Aluminum profile for surface 58x9mm of 2mt. in half moon shape. It is a nice profile that you can install on the wall or ceiling, both vertically and horizontally. It offers us a direct illumination towards the place where it is pointing, therefore it is advisable to use an opal or glazed diffuser, since the transparent one can dazzle us, although it will always depend on the use that we are going to do. Easy and fast installation.- Diffuser and caps not included -
