

Integral plaster luminaire with wave effect - 300 x 300 mm - GU10

Ref. B278-L

Plaster luminaire for installation in plasterboard ceilings in the form of progressively fading waves. This luminaire is designed to achieve a perfect integration to the environment, since after a simple installation, a visual continuity is obtained without edges or perceptible fissures. The plaster, a material also known as plaster or plasterboard, in addition to being integrated into the plasterboard, can be painted in the desired color, thus reinforcing the concept of integration. It accepts a GU10 bulb, offering multiple functional and aesthetic possibilities in architectural projects, depending on the type of bulb chosen. **GU10 bulb not included

Datos del producto
