

PARATHOM PRO PAR16 35 GU10 36° 3,4W 4000K bulb

Ref. 0608351

PARATHOM PRO PAR16 35 GU10 36° 3,4W 4000K cool white light bulb - Dimmable, is the perfect alternative to the halogen GU10 bulb. It is a spot type bulb with a diameter of 51mm. The lamp operates at 224V and does not need a transformer. By switching to LED you will gain numerous advantages! You can save up to 90% in energy and maintenance costs, due to the low energy consumption of 3.4W and a lifetime of 25000 hours. Traditional GU10 halogen bulbs last only 2000 hours. LED lighting does not produce heat and emits no UV radiation. Kelvin: 4000K ✓ CRI: ≥97. ✓ Power: 3.4W ✓ Socket: GU10 ✓ Dimmable: Yes
