

LED strip under cabinet T5 - 150 cm - 18W opal - CCT

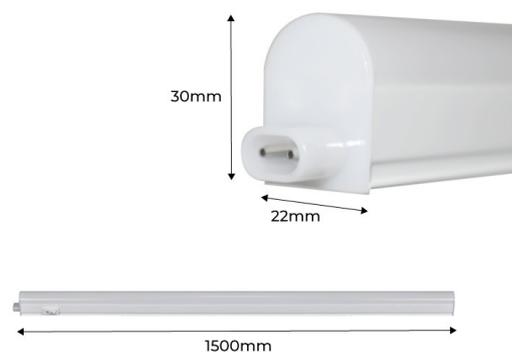

Ref. B1780-5-150CCT

The LED strip under cabinet T5 150 cm CCT is an ideal solution to replace traditional fluorescent tubes, as it combines quality and substantial energy savings. It has 18W of power, providing a great luminosity, homogeneously distributed thanks to its opal diffuser. It incorporates the CCT system, allowing to modify the color temperature between three different shades: warm white (3000 K), neutral white (4000K) and cool white (6500K), by means of a selector located internally. This strip is perfect to place under kitchen or dressing room furniture, indirectly illuminate countertops, work surfaces and cabinets. **Included: end cap, screws and set of metal staples for fastening**.
