

Magnetic rail 20mm recessed - 48V - 2 meters

Ref. CME-200

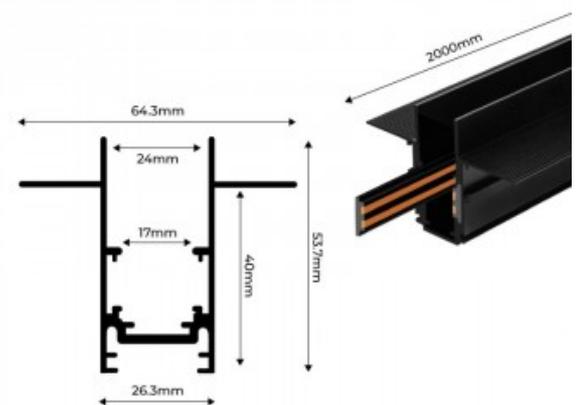

20 mm recessed magnetic rail made of high quality aluminum, available in black and white color. It allows to place magnetic LED spotlights in a very simple way, according to the needs of each project. It offers numerous configuration possibilities and can be installed both in ceilings and plasterboard walls, without representing any risk to users by operating at low voltage (48V). **It includes a plastic cover to cover the free surface between luminaires and two end caps**.
