

Magnetic rail 20mm surface mounted 48V - 2 meters

Ref. CMS-200

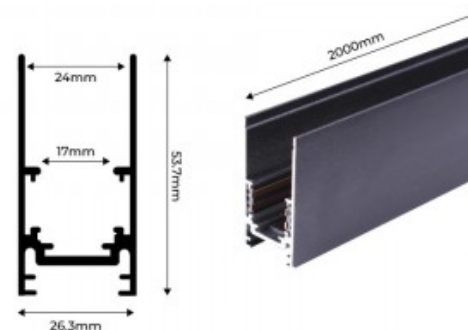

Our 20mm surface mounted magnetic track is made of high quality aluminum and is available in black and white color. It allows to place magnetic LED spotlights in a very simple way, according to the needs of each project. It offers numerous configuration possibilities and can be installed both in ceilings and plasterboard walls, without any risk for users because it operates at low voltage (48V). It can be surface mounted and also suspended by adding the suspension kit. **It includes a plastic cover to cover the free surface between luminaires and two end caps**.

Product data
