RGB connection cable for Flexible Swimsuit B1939-RGB

Ref. B1939-C-RGB

4-pin starter cable with 160mm total length, coated in white PVC plastic. It is necessary to connect LED strips, washers or other compatible products; directly to the male jack connector of a power supply or to connect several strips or washers together. This connector facilitates connections between the B1939-RGB flexible washer and a compatible 24V power supply and RGB controller, making installation more practical. Item features:✓ 4" waterproof connector start cable. ✓ Way to connect: Male and female ends push or push in (Quick coupling system).✓ Material (outer): PVC plastic. ✓ Total length (connection) : 160 mm✓ Coupling type: Female
