

Three-phase rail for LED spotlights - 1 meter bar

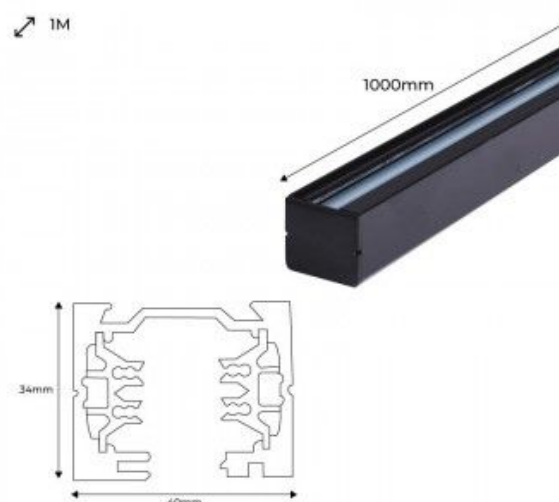

Ref. BTT-100

The three-phase track, 1 meter long, allows to install LED spotlights and to move them easily, according to the needs. It consists of an aluminum profile available in two colors (black or white), with 3 electrical lines that allow three independent ignitions on the same track. In this way, it offers great versatility for the differential switching on and off of luminaires, according to the needs. Supports a maximum of 16A.**Includes start feeder and end cap**.
