

LED advertising display for lighting poles - Outdoor use - P4mm - 148 x 86,5cm

Ref. DP4T1

Outdoor LED advertising display specially designed to be installed on poles or lampposts. It has an original design and incorporates the most innovative technology in the market that allows to reproduce images in high definition, guaranteeing a great visibility and visual impact, even at long distances. High brightness and resolution, image sharpness, high resistance, durability and minimum consumption are some of its main features. Thanks to its IP65 degree of protection, this display is totally resistant to rain, dust and unfavorable weather conditions. When installed at the top of the pole, it can be oriented to gain maximum visibility. Places of installation: public roads, exhibition centers, shopping malls, bus or train stations, airports, gymnasiums or markets. Product subject to special shipping conditions in mainland Spain and Balearic Islands: +100€ shipping costs.
