

Aluminum profile for floor mounting - LED Strip up to 15 mm - 2 meters

Ref. LM3815

Floor recessed profile for LED strips up to 15 mm wide, high strength and durability. It offers a versatile, modern and functional lighting solution for applications where it is desired to hide the LED strip. It has a silver finish and a white opal diffuser along the length of the profile, which allows for homogeneous, glare-free illumination. It can be used to illuminate driveways, corridors, stairs or simply for decorative purposes, among many other possible applications. ****Includes an opal diffuser****
