

**Ref. BPERF17X8**

A close-up photograph of a human hand, palm up, reaching towards a horizontal light source. The hand is positioned in the lower half of the frame, with fingers slightly spread. The light source, which appears to be a fluorescent tube, is located in the upper half of the frame. The light is bright and creates a strong horizontal band of illumination across the scene. The background is a plain, light-colored wall. The overall composition is simple and focuses on the relationship between the hand and the light source.

Material	Aluminio
Uso Exterior	No
IP	IP20
